No. 715 / Encl 3 { 1 Plan, 1 Report, 1 Estimate

Agri 1938

Office of the Economic Botanist,
Superintendent, Govt. Gardens,
Lal - Bagh, Bangalore,
26th May, 1909.

From

G. H. Krumbiegel, Esq.,
Economic Botanist,
Supt. Govt. Gardens.

Agri 224-08-5

To

K. S. Chandrasekhara Iyer, Esq., B.A., B.L.,
Secretary to the Govt. of H.H. the Maharaja of Mysore,
General and Revenue Departments.

Sir,

With reference to the proposed Farm in the SUNKAL TANK sanctioned in Government Proceedings No. R. 4840 - 76/ Agri 137-07-2 dated the 16th January last, I have the honor to forward herewith an estimate amounting to Rs. 3,569/- for constructing an enclosure round the same.

The Plan and Report relating thereto are also enclosed herein. The plan roughly indicates the length of wire fence required to be erected and the report the necessity for its construction.

As this is very necessary I request that Government may be please to sanction the estimate as a whole, out of which I can spend only Rs.2,000/- during the current official year for the purchase of stone slabs and wire.

The cost of Rs. 2,000/- thus proposed to be incurred can be met from the sum of Rs.6,000/- sanctioned out of the provision of Rs.10,000/ made under 21 E (6) Experimental Cultivation in the current years budget.

Soliciting an early reply in the matter,

I have the honor to be,
Sir,
Your most obedient servant,

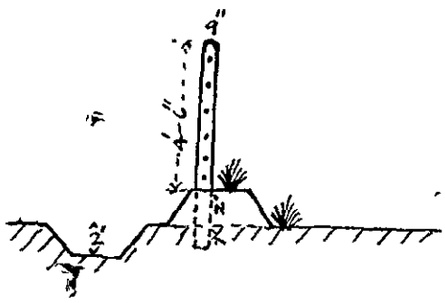
Economic Botanist,
Supt. Govt. Gardens.

Report to accompany the Estimate for constructing an enclosure round the Sunkal Tank near Lal-Bagh, Bangalore

Amount of Rs: 3569

This fence will be constructed round the Sunkal tank which is situated in the North East of Lal-Bagh garden. As it is proposed to convert this tank bed into an experimental vegetable and fruit garden, it is absolutely necessary to build the enclosure to prevent the cattle and other animals from getting inside and damaging the produce. Just at the outside of the fence, a drain of the trapezoidal shape is opened out to drain off all surface rain water and also to serve as an obstacle in the way of the animals from getting access into the garden. Inside and close to the fence, a double row of Agave or Sisal hemp is planted as per sketch shown in the margin. The fence consists of stone uprights with 6 rows of wire

SECTION



Economic Botanist,
SUPERINTENDENT, GOVT. GARDENS
IN MYSORE.

Estimate of the probable cost of constructing a fence round the Sunkal Tank, at Bangalore, total length being 100

Description of work.	No.	Measurement in ft. L	B	D	Contents	Total.
For a length of 100 feet.						
Earthwork.						
Excavation for upright slabs	13	1	$\frac{3}{4}$	2	19.5	
do side drain	1	100	mean 2	2	400	
						C. Yds.
Total earthwork in c. yds	–	–	–	–	–	15.5
Stone slab uprights with 6 holes in each						
No. of posts for 100' length	13	($7\frac{1}{2}$	$\frac{3}{4}$	$\frac{1}{2}$)		
						Slabs.
Total slabs	–	–	–	–	–	13
Steel wire for fencing in 6 rows						
	rows					
Length required	6	100	–	–	600	
						R.ft.
Total length in R.ft	–	–	–	–	–	600

N.B Data showing the cost of each upright slab with rough dressing, Mea.

	lbs	cu. in.
Stone slab $7\frac{1}{2}$' long	0–14–6	
Boring holes (6)	0–12–0	
Dressing	0–5–6	
Total	2–0–0	

Abstract

No.	Items of work.	Per	Quantity	Rate Rs	as	ps	Amount Rs	as	ps	Total
	For 100' length of fence.									
	Earthwork	Lump	15-5	0	2	0	1	15	0	
	Stone slabs for uprights	Each	13	2	0	0	26	0	0	
	Steel wire for fence	1 Rft	600	0	0	2	6	4	0	
	Total cost for 100' length of fence						34	3	0	
	For the whole length of fencing viz	10,000 feet long								
			= (34-3-0 × 100)				3418	12	0	
		or Say nearly					3419	0	0	
	Field gate	L.S.					100	0	0	
	Bolts & nuts for straining	L.S.					50	0	0	
	Grand total									Rs 3569
